

SIQURA VETX

VETERINARY DISINFECTANT

SIQURA™ VETX is an ultra-concentrated, environmentally-friendly multipurpose veterinary disinfectant formulated for use on a variety of hard surfaces, surgical and veterinary equipment, as well as airspaces. Unlike traditional disinfectants, Siqura VetX is completely free from aldehydes and iodine.

SIQURA™ VETX is bactericidal, virucidal, fungicidal, and sporicidal, ensuring comprehensive defense against a wide range of microbes.

SIQURA™ VETX is non-corrosive, non-toxic, non-tainting, and non-irritating, prioritising the well-being of both animals and caretakers. Not only does Siqura VetX excel in performance, but it is also highly cost-effective, providing exceptional value for its effectiveness.

SIQURA™ VETX VETERINARY DISINFECTANT

BROAD SPECTRUM EFFICACY† SIQURA™ VETX is designed to provide a comprehensive defense against various types of pathogens. It is effective against gram-positive and gram-negative bacteria, enveloped and non-enveloped viruses, fungi, and even bacterial and fungal spores.

MINIMAL RESISTANCE SIQURA™ VETX utilizes a combination of active ingredients and a unique mode of action to minimize the development of microbial resistance over time.

SAFETY SIQURA™ VETX is generally considered safe for animals and humans when used as directed. It is formulated to be non-corrosive, non-toxic, and non-irritating, making it suitable for use around animals and in various environments.

VERSATILITY SIQURA™ VETX can be used on a variety of surfaces, equipment, and environments, ranging from cages and kennels to surgical instruments and animal bedding.

APPLICATION SIQURA™ VETX is typically diluted with water before use and can be applied through misting, spraying, soaking, or wiping, depending on the specific application needs.
